#### **GIFT AGREEMENT BETWEEN**

## OSBORN SCHOOL DISTRICT, NORTHERN ARIZONA UNIVERSITY AND

#### NORTHERN ARIZONA UNIVERSITY FOUNDATION, INC.

This Gift Agreement ("Agreement") is by and between Osborn School District ("Osborn"), Northern Arizona University ("NAU"), and the Northern Arizona University Foundation, Inc. ("NAU Foundation"), a 501(c)(3) nonprofit organization established in the State of Arizona, for the benefit of NAU. The NAU Foundation accepts this charitable contribution, subject to this Agreement's terms and conditions.

This Agreement sets forth the entire understanding between the parties regarding their engagement in the disbursement of funds from the Education Innovation Research Early Phase Grant ("Grant") awarded on November 28, 2023, from the U.S. Department of Education. The Arizona Teacher Residency Program ("AZTR") is an initiative of the NAU College of Education that recruits, prepares, and supports diverse and talented people who want to become teachers through rigorous graduate education, year-long clinical apprenticeship, and ongoing professional learning.

#### I. Term of Agreement

This Agreement shall be effective as of the date set forth on the signature page and shall remain in effect until December 31, 2028, unless terminated or extended as otherwise provided herein.

#### II. Roles and Responsibilities

#### Osborn

- Osborn will serve as the fiduciary for the Grant through receipt of the Grant award and distribution of funds for payables associated with the AZTR program's operation.
- Osborn will serve as the primary administrator of the grant for the performance period.
- Osborn will be responsible for all aspects of fiscal administration including internal and external processes to support successful implementation of the grant expectations.
- Osborn will be responsible for ongoing communication with the USED administration to ensure programmatic and fiscal compliance.
- Osborn will remit payments to the NAU Foundation for expenses incurred for general operations of the AZTR program. Reimbursement will be allocated as outlined in Exhibit A based upon receipt of proper invoices provided to Osborn by the NAU Foundation.

#### NAU

- NAU's College of Education ("COE") is leading the Arizona Teacher Residency Program.
- Victoria Theisen-Homer and Jessica Manzone, or their incumbents who are employees
  of COE, will work with Osborn to ensure the implementation of the program's operational
  goals.
- This grant helps fund the personnel and operating expenses of the AZTR program, which recruits, prepares, supports, and retains teachers for Title-1 Schools in Arizona.
- The research conducted on this program by AIR will serve to evaluate the program's effectiveness, and if proven effective, will make the case for its expansion.

#### **NAU Foundation**

- NAU Foundation will accept the invoice payments from Osborn to the AZTR Fund (#05669; "Fund").
- Fund's uses and expenditures shall be consistent with NAU and NAU Foundation policies

and practices. This Fund shall be administered by the Dean of the COE or their designee. Any program or project supported herein must be consistent with the tax-deductible status of gifts made to the NAU Foundation. If, at some future time, a different office, department, college, or unit becomes responsible for the management of this Fund, then administration of this Fund shall also transfer.

 It is understood that the NAU Foundation will assess a fee on each expense reimbursement received for this Fund to support a portion of the NAU Foundation expenses related to developing, establishing, and maintaining the Fund on behalf of NAU. The fee policy is reviewed and set by the NAU Foundation's Board of Directors from time to time.

#### III. Recognition

In consultation with Osborn, NAU and/or NAU Foundation may acknowledge the U.S. Department of Education or highlight the Fund in the form of internal or external news announcements, web site and other media, informational or marketing materials, reports or publications describing U.S. Department of Education's investment in NAU's mission.

If the NAU Foundation and/or NAU determine that the Gift, Fund, Naming or purpose could negatively impact NAU's or the NAU Foundation's reputation, image, mission or integrity, the NAU Foundation and NAU may terminate this Agreement and all rights and benefits of the Osborn herein.

#### IV. Amendment and Change Circumstances

This Agreement may be amended by a written instrument signed by both the NAU Foundation and Osborn signatories found below. In addition, if circumstances within NAU should change so that the uses and purposes for which this Fund has been established cannot be usefully or practically applied to the above purposes or if the purpose cannot be achieved because of a future change in law or unforeseeable circumstances, then the NAU Foundation in cooperation with NAU shall determine how fund income and principal may be used bearing in mind the wishes of U.S. Department of Education set forth herein, and in consultation with Osborn.

#### V. Termination of MOU

This Agreement may be terminated by Osborn, NAU, or NAU Foundation upon written notice delivered to the others with or without good cause with 30 days written notice. By such termination notice, neither Osborn, NAU, or NAU Foundation shall negate obligations already incurred or required to be performed prior to the effective date of the termination notice. In the event that Osborn, NAU, or NAU Foundation violates the terms of this Agreement, or otherwise defaults its responsibilities any other party may exercise administrative or legal remedies to ensure appropriate remedial action.

#### VI. Assignment and Governing Law and Venue

This Agreement and the rights and benefits herein may not be assigned by Osborn, NAU, or NAU Foundation without the prior written consent executed by the parties. This Agreement will be governed by and construed in accordance with the laws of the State of Arizona without regard to any conflict of laws rule or principle that might refer the governance or construction of this Agreement to the laws of another jurisdiction.

#### VII. Communications

Osborn, NAU, and NAU Foundation shall agree that representatives from all parties' communications staff will work together on any communications materials. No party shall use any other party's name or logo in any public relations or promotional activities without the other party's

consent.

WHEREAS, Teach For America is a national leader in recruiting, selecting, training and providing ongoing professional development to individuals committed to closing the achievement gap by serving as effective classroom teachers specifically equipped to enhance student achievement in under-resourced school systems.

- f. 0-12 teachers for the 2029-2030 academic school year. For additional detail on the Agreed Number, please see **Exhibit A**.
- ii. Whether or not Teach For America is able to provide the full Agreed Number, School District shall consider for hire each Teacher provided by Teach For America who meets the district eligibility requirements.
- iii. Any Teach For America Teacher hired by the School District shall be hired as the classroom teacher of record and not for substitute, auxiliary, resource or teacher's aide positions.
- iv. Teach For America Teachers will be hired by School District for vacancies across the full range of grades and subject matters and not restricted or limited to so-called "critical" or "shortage" subjects or grade level vacancies. School District agrees that Teach For America Teachers will not provide any religious instruction.

#### B. <u>Hiring Process</u>.

- School District and Teach For America will collaborate in good faith to facilitate the efficient hiring of individual Teachers, in accordance with the School District's established District hiring practices.
- ii. School District shall use its reasonable efforts to hire Teachers in a timely manner throughout the preceding spring and summer. School District shall employ Teachers no later than 10 days before the first day of the academic school year. School District agrees that where possible, Teach For America shall be informed of individual Teacher's grade and subject level assignments prior to the start of their Pre-Service Training (as defined below).
- iii. Subject to its obligations under pre-existing collective bargaining agreements, contracts, or applicable law, School District will offer alternative employment to any Teacher who is not employed by the first day of the academic school year. "Alternative employment" includes, but is not limited to substitute teaching positions, "pool" teaching positions, classroom aides or other temporary category of employment available within School to individuals with teaching credentials. The purpose of an alternative employment placement is to provide a salary until such time as School District can secure permanent employment as a full-time classroom teacher of record.
- iv. In the event that School District cannot offer alternative employment for whatever reason, School District will pay Teach For America a fee of \$0 for each business day that an eligible Teacher is not employed after the first day of school for students, up to forty (40) days. (Teach For America uses such fees to defray the living expenses of unplaced Teachers.)

#### II. TEACHER CANDIDATE RECRUITMENT, SELECTION AND HIRING:

Teach For America Responsibilities:

- A. <u>Candidate Recruitment and Selection</u>. Teach For America will utilize its reasonable efforts to recruit, select for participation in the Teach For America program, and present to the School District for employment Teachers from a broad range of academic majors and career fields. Teach For America will use reasonable efforts to recruit Teachers from diverse backgrounds. In connection with the foregoing, Teach For America will not knowingly engage in any unlawful acts of discrimination in its recruiting or selection of candidates.

#### **Data Security**

Teach For America employs a number of strategies to secure data and limit unnecessary access during transfer, storage, and processing. We encrypt data in transfer as well as at rest when it is being stored in a data repository. For our internal data storage, we change encryption keys on a regular basis to avoid stale credentials and unwanted legacy access. Data is regularly obfuscated for analytics and reporting purposes, and is only presented to stakeholders (e.g., TFA staff, board members, funders, SEAs/LEAs) in aggregate, rolled up at the classroom, instructor, school, or district level. We use best practices for data isolation, including limiting accounts for vendors who push data to our systems and centralized oversight of user accounts for external systems when we need to pull the data ourselves. We use a "least privilege granted" model for access to internal systems, employing multi-factor authentication where feasible, and monitor access across these systems with auditable logs. Additionally, we have blanket data privacy training for all staff that covers key elements of working with PII, sensitive data, and student data.

Teach For America shall also have a written incident response plan, which shall include but is not limited to, prompt notification to PARTNER in the event of a security or privacy incident, as well as procedures for responding to a breach of any of PARTNER's Data that is in Teach For America's possession. Teach For America agrees to share its incident response plan upon request.

# APPENDIX B: DESCRIPTION OF SYSTEM(S) USED IN THE TRANSFER OF PARTNER CULTIVATE SURVEY DATA, FREQUENCY AND SECURITY FEATURES

#### **System Description:**

#### Cultivate Description:

This **Appendix B** shall serve as Teach For America-Phoenix's official notification of the use of the UChicago Impact Cultivate for Coaches student survey for professional development and organizational reporting. Cultivate for Coaches is a professional development program designed to support coaches and Participants in creating learning environments that positively affect what students believe about themselves as learners and the strategies they employ in their classrooms, ultimately improving student academic performance. This program includes student surveys for grades 5-12 administered by UChicago Impact. The survey is crucial because it will provide Participants with important information on students' perceptions of the classroom learning environments that, in turn, can support their understanding of strengths and areas of growth. Below we've outlined the various ways Teach For America-Phoenix and Participants will utilize Cultivate student survey data, including but not limited to:

- Participants review student feedback to prioritize areas for growth.
- Coaches utilize data to support individual teacher development, based on evidence from student surveys, and incorporate evidence-based best practices provided by University of Chicago.
- Teach for America reports aggregate data as a key performance indicator for continuous improvement of programmatic supports.

#### Cultivate Survey Security Features:

UChicago Impact will administer the Cultivate for Coaches Survey to students of TFA Participants in grades 5-12. The surveys will be administered using UChicago Impact's Survey Administration Tool. Each teacher will receive a unique link for student survey administration.

- Student identification will be kept confidential and stored on secure servers for both outreach and survey administration.
   Only UChicago Impact staff and agents necessary for administration of the survey will have access to student and teacher identifiers during administration.
- Students will select their birthdate, gender, grade level, school and teacher using a combination of drop-down lists or radio buttons. This data is collected solely for the purposes of reconciling multiple surveys from the same students. Students have the right to omit responses to any question. Once data collection and reporting are complete, student identifying information will be permanently deleted.
- Students will also have the option of selecting their race/ethnicity in order for teachers to understand how student
  perceptions vary by race/ethnicity.
- To receive student data, CMs must have at least 50% of students (based on student count provided by TFA) complete the survey and have at least 10 valid respondents per item to receive full report data. Partial survey responses will also be accepted.
- Only aggregate data (for classrooms with at least 10 students) will be reported to teachers on a password-protected basis
- TFA will have access to student-level data without any identifiable information through a password-protected system.
- UChicago Impact has the right to keep all non-identifiable student scores for national benchmarking purposes but cannot report on any aggregate results without explicit permission from TFA.
- UChicago Impact employs several industry standard practices to secure data and prevent unauthorized access. Data is
  encrypted both while in transit during the survey process, and while at rest when stored in the data repository. Encryption
  keys are changed on a regular basis to avoid stale credentials and unwanted legacy access. Data is regularly obfuscated for
  analytics and reporting purposes and is aggregated by being rolled up at the classroom, instructor, school or district level.
  The server management team enforces data isolation and oversight of all user accounts accessing data, including
  continuous monitoring of access across our systems using centralized, auditable logs.

Following their readings, these community members engaged with our students by reflecting on the significance of reading in their lives. They answered thought-provoking questions such as: Why is reading important to you? Have you ever faced challenges with reading? How do you relate to the story you shared? And, in what ways has reading impacted your life? These interactions not only fostered a love for reading but also highlighted the invaluable support and partnership we receive from our community members in nurturing our students' academic and personal growth.

**Phoenix College** - I'm excited to announce that our collaboration with the Future Teachers Club remains strong. On March 8th, they'll be joining us for our reading picnic, bringing a range of engaging activities for our students to enjoy. From crafting bookmarks to setting up reading stations, their involvement underscores the importance of reading in our community and the valuable contributions of our future educators.

**Parent Teacher Conferences** - We will warmly open our doors and welcome about 500 of our parents during the parent-teacher conferences. Focus of Update: Data and Assessment	
Strategic Plan Connection:	Child & Student Success
Update:	As of March 4, AZELLA testing is at 98% completion. Our schools have done such a wonderful job of coordinating schedules to assure that all of our English Learners have the opportunity to show how much they have grown in their language on this annual assessment. Reports will be available mid-May.
Impact on Academic Excellence and/or Social-Emotional Learning	The purpose of the AZELLA test is to measure progress of a student's English language acquisition from classroom instruction during the school year. In addition, the data helps us determine the most appropriate instructional placement for the student for the next school year. We can't wait to see lots of growth on AZELLA!!

Focus of Update: Family and Community Connection	
Strategic Plan Connection:	Child & Student Success
Update:	On Valentine's day we had an unforgettable performance from 123 Andres (Andres & Cristina) at Encanto, Clarendon and Longview!!! They turned our amazing cafeteria and auditorium into a space filled with music, movement and laughter.
Impact on Academic Excellence and/or Social-Emotional Learning	Students received an amazing taste of Latin America, learned new vocabulary, history, culture, and geography through songs in both Spanish and English. They engaged in dances like salsa, bachata and more. Our Osborn DLI students had a great cross-cultural experience!

Focus of Update: Family and Community Connection		
Strategic Plan Connection:	Parent & Community Partnership	
Update:	Monica and Jennifer Page collaborated to provide a structured system for teachers to request Spanish and other language interpreters during Family Conferences.	

	Osborn Spanish interpreters were recruited to ensure that a high quality interpretation was provided to families. Teachers are expected to request for an interpreter days in advance via a Google form.  Teachers who request languages other than Spanish are provided directions to call Language Line and request the language of need.
Impact on Academic Excellence and/or Social-Emotional Learning	Providing interpreters helps build strong communication and partnership between teachers, students and parents.

Focus of Update: Professional Development	
Strategic Plan Connection:	Equity
Update:	Per our ELD Action Plan, Monica Artea sent two EL Advisors to attend the Thinking Maps: Path to Proficiency training. Trainers will plan and facilitate Thinking Maps professional learning for all teachers in SY 24/25 at their sites.
Impact on Academic Excellence and/or Social-Emotional Learning	The training helps teachers to be more intentional about planning the linguistic demand of tasks and providing appropriate scaffolds for English language learners, which in turn will directly improve language acquisition and comprehension of grade level content.

Focus of Update: Teaching & Learning		
Strategic Plan Connection:	Child & Student Success	
Update:	Osborn has benefitted from our ongoing partnership with the National Institute for Excellence in Teaching (NIET) for over a decade. This year, NIET is also directly benefiting from Osborn as we pilot their new online platform, EE PASS 2.0. The system is being piloted in only 7 districts across the United States, and Osborn is one of them! The resources on EE PASS support educators to develop effective instructional practices. Teachers can search for relevant instructional content, see real life examples of best	

	practices in the classroom, and access learning 24/7. The platform also serves as our observation database and offers new analysis tools to support data-driven decision making.
Impact on Academic Excellence and/or Social-Emotional Learning	From Ann Nielsen, the Director of Virtual Learning and Technology Services (NIET):  "Thank you again to Osborn for your continued support of educator excellence. You will be impacting thousands of teachers and millions of students! We are very appreciative of the feedback [your teachers] are sharing with us as we work to refine our new platform."

Focus of Update: 21st Century Community Learning Centers									
Strategic Plan Connection:	Child & Student Success								
Update:	Students are in their final session of 21st Century learning! We are excited to be able to finish strong and have students show off their new found skills and talents to their families. Students will be participating in showcases and tournaments as we come back from Spring Break.								
Impact on Academic Excellence and/or Social-Emotional Learning	Students are able to learn and grow in an inviting environment afterschool that fosters their passions and interests.								

Focus of Update: Teaching & Learning										
Strategic Plan Connection:	Child & Student Success									
Update:	Cathy Gentry from the Teaching and Learning Team collaborated with representatives from the University of Arizona Project WET, the City of Phoenix, and the Arizona Department of Water Resources to coordinate the Water Festival for fourth grade. Osborn students benefit from the hands-on learning experience which is fully funded by the City of Phoenix. The Arizona Water Festival instills a deeper									

	understanding of water in the earth system and Arizona's water resources. Leading up to the event, fourth grade teachers across the district presented units of study in the classroom. The program also included; teacher professional development, 10 lesson plans that activated learning, and a festival event with water professionals and community volunteers to engage students in activities related to groundwater, watersheds, the water cycle and water conservation technology.  The culminating event was scheduled at Clarendon on Thursday, February 22nd. Students from Longview and Solano were transported for the morning of exploration and learning.
Impact on Academic Excellence and/or Social-Emotional Learning	Fourth graders interact with grade level science standards by observing the phenomena that relate to the environment in which they live using student-centered, 3-dimensional hands-on learning.  This focuses on "doing" science: asking questions and defining problems, developing and using models, planning and carrying out investigations, analyzing and interpreting
	data and constructing explanations and designing solutions to optimize student learning. The Water Festival is one way educators bring science to life for students.

Focus of Update: Grants Update											
Strategic Plan Connection:	Child & Student Success										
Update:	Four of our schools now have dispensers in each health office to support feminine hygiene! Dispensers and supplies were received in the last few weeks and have been installed and delivered to each school.										

Board Meeting Date: March 29, 2024

Impact on
Academic
Excellence and/or
Social-Emotional
Learning

The ability to provide access to this type of resource to our students gives us the capability to meet a wider range of needs that contributes to students' focus and achievement in school.

Focus of Update: Preschool Update										
Strategic Plan Connection:	Child & Student Success									
Update:	Our students at Longview have received additional enhancements to their playground through the HQEL grant. Two outdoor reading canopies, balance equipment and 'traffic signs' to support safe trike riding were delivered earlier this week.									
Impact on Academic Excellence and/or Social-Emotional	These new additions to the students' outside									

Learning

learning space will allow them to engage in reading within an extended, flexible learning environment. The balance equipment will support sensory needs by helping to not only building

motor skills, but also can support social emotional support by calming their minds through physical focus and

supports students' vestibular system regulation. Incorporating traffic signs throughout the trike path provides opportunity for imaginative, creative thinking and simulates real-world experience.

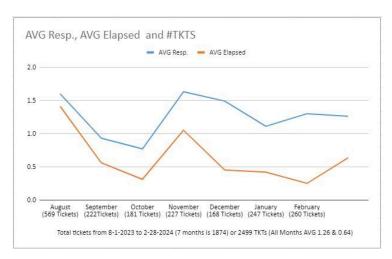

### **Technology Department Report**

#### March 2024 - Jamal Dana

1. Help Desk Services: Since the beginning of this school year we have had 290 service tickets. In February, we had slightly higher tickets from January that was 284 tickets. At the same time, we kept monitoring our Malware, antivirus, and Phishing. Our service department's overall average response time was under two hours that have been meeting our goal this school year (our current AVG response time to tickets since starting this school year is 1.30 hours with an average first response to a ticket is 0.25 hours).

- 2. **E-rate Update:** An RFP was filed on 2-2-2024 for our underground fiber lines that connect all sites together. Another application is to renew with Cox its fifth year of our contract, Wi-Fi analyzers and or the warranty on critical equipment. We will need to wait 28 days from the day of filing before opening the bids and doing the evaluation/award. A newspaper ad will also be posted by our COO. We will also have a couple more RFPs for the Wi-Fi analyzer and the warranty on equipment that will be done too. Cox's fifth year of our existing contract will be used for this upcoming school year 2024-2025. The school year 2025-2026 will be using the new underground street fiber lines if everything goes well with the construction without any obstacles.
- 3. **Student Devices:** Preparing for the Azella testing starting on 3-26, we have been looking for any outdated devices that will not work with our state testing in March. We found a few and replaced them with spare ones that we have in our storage area. We are also preparing about 150 devices ready to go and be swapped during the test if any issues arise. Our student testing software TestNav hardware and software requirement are already being met before the test deadline.
- 4. **Solano New Fiber:** We ran a pipe from the admin building to the cafeteria building. Running the fiber through it will be during spring break.
- 5. **Radius Server**: We are looking into testing a Radius server that will manage accessing our network using specific information off our devices.
- 6. <u>Uninterruptible Power Supplies UPS:</u> After fixing all our power outlets to meet the correct voltage for our UPSs, we are ready to start installing them in our data closest during Spring break.
- 7. <u>Copiers/Printers Cloud based:</u> We are removing our print server soon and put all our copiers and printers in the Sharp/Paper-Cut cloud software. This will help in our disaster recovery plan in the near future to be able to print from the cloud from anywhere.
- 8. **Principle 1:1 Meeting:** I am preparing to meet with each school principal to get feedback about the quality of our tech services, number of tickets, type of issues and sub-categories in each school, who among the staff needs more training, schedule tech help days, on site and the school cybersecurity reports. The meetings will start the second week of March.

The Osborn Community advances the full potential of every child by developing emotional intelligence and academic excellence.

#### OSBORN SCHOOL DISTRICT #8

#### BUDGET COMMITTEE

## 1. ESSER Funds End Sept 2024.

Dr. Robert reviewed the initial list of ESSER position reductions that are necessary as a result of ESSER funds ending. Current ESSER funded positions that other funding sources are not available to support will be eliminated. Administrator, Certified Teacher, and Support Professional positions were identified first due to the timing of contract issuance in February. Classified ESSER positions will be reviewed and shared prior to classified letters of intent being issued.

ESSER teacher and support professional reductions will be achieved through attrition and current position vacancies. However, ESSER Administrator positions will be eliminated through Reduction in Force (RIF).

## 2. M&O Revenue & Budget Projections – due to declining enrollment

- The district is currently looking at a (\$455,000) deficit as compared to FY24
- Salaries and benefits make up 17 million of the 21 million M&O budget
- The District needs to have at least 1.5 million in carryover (current year savings) in order to balance the 24-25sy budget. This is the carryover amount needed each year to sustain annual expenditure levels.

### 3. Staffing Allocation Models- update from Dr. Robert

Dr. Robert and Ms. Toscano shared how staffing allocations are determined noting that these are not caps for class sizes but used for the purpose of determining staffing allocations. When looking at our neighboring districts staffing models, Osborn continues to use a divisor that will keep class sizes lower than comparison districts.

The 24-25sy staffing allocation for k-3 is 1 classroom per 25 students, and 4-8<sup>th</sup> grade is 1 classroom per 28 students. Grade band allocations allow site leaders to look at site needs differently and with more flexibility.

# 4. Working List / Recommendations

The 24-25sy projections began with a (\$455,000) deficit.

After applying the district's staffing allocations for k-3 and 4-8, teaching positions have been identified for savings along with any corresponding classified positions. Teacher allocations are calculated first due to timing of teacher contract issuance in February.

#### **Updated Position Allocations:**

Savings of 2 teacher FTEs - based on staffing allocations for k-3, 4-8 and sped caseload projections \$115,000 savings

#### 5. Contract Issuance

#### **Contract Timeline**

February 21- Contract issuance March 12- Contracts Due

- Teacher reductions will be achieved through attrition and current position vacancies.
- All teachers meeting certification requirements will receive contracts in February.

Contracts will be issued at current salary amounts, with the ability to be increased later based on outcome of budget committee process and legislative funding levels.

- There will be not be any one-time longevity payments or retention payments for FY25 as these were funded in past years with ESSER dollars.
- There will also not be an early (48hr) contract return incentive.

#### 6. Share out ideas and questions from site/dept reps.

Ms. Toscano will create a fact sheet using submitted questions to assist members as they gather feedback and engage in conversation at their sites.

#### 7. Homework

Present revenue projections and talking points to your sites. Continue gathering ideas/suggestions from your sites on potential savings areas.

Next Meeting February 28 at 3:45pm.

# 2024-2025 RENEWAL

# **OSBORN ESD**

# HEY, WHAT'S NEW?

## **RATE CHANGES**

DELTA DENTAL
3% INCREASE

TDA DENTAL
4% INCREASE

VSP VISION NO CHANGE

Refer to page 12 for your medical rates and pages 14-15 for ancillary rates.

Note: There may be minor adjustments in final rates due to rounding.

## OTHER BENEFIT ENHANCEMENTS

- 1. We're changing our renewal process and adding an exciting open enrollment resource this year! See page 10 for more information about these changes.
- 2. Due to IRS requirements, we've increased the \$1,500 HDHP deductible to \$1,600 for individuals and \$3,200 for families. The out-of-network deductibles will also increase to \$3,200 and \$6,400.
- 3. Health care costs continue their endless march upward, so we're working with new partners to help save employees and their families money:
  - Centers of Excellence (COE). A specialized facility or a part of a health care institution that delivers exceptionally high standards of care and advanced treatments in a specific area of medicine. The initial focus for our COE will be major orthopedic surgeries, cardiac care, and some cancer care. Cost-sharing will be waived, subject to IRS minimums on HDHPs, and financial assistance may be provided for travel.
  - Promotion of non-hospital labs through preferred partners. By receiving labs at a non-hospital facility, employees can experience significantly lower out-of-pocket costs than if those same labs were handled in a hospital setting. For comparison purposes, labs received in a hospital can cost individuals and the plan about three times as much. Kairos will provide a significant increase in member education opportunities and work with a preferred partner to expand awareness and access to non-hospital labs as a first steps towards providing more participant options for one of the most used benefits (lab work). Employee Network: Employee Network is a voluntary, no-cost discount program offering lower prices for concerts, car and plane travel, sporting events, hotels/resorts, and more!
- 4. We've added new covered services on our Delta Dental plan. The plan now covers posterior composites and a third cleaning benefit for those with a qualified medical condition.
- 5. Nationwide Pet is promoting true wellness for our furry friends! Specifically, wellness plan options have been added back to Nationwide's offerings.
- 6. Finally, there are new executive/senior-level basic life amounts available! Please see page 14 for these additions.

#### DISCLAIMERS

The Core, Copay, \$1,200 PPO, and \$5,000 HDHP plans have an embedded individual deductible and out-of-pocket limit. An embedded deductible means that each family member has an individual deductible. When an individual reaches their deductible, the plan will begin to pay benefits for that individual, regardless of whether the family deductible has been met. The same logic holds true for the embedded out-of-pocket limit.

The \$1,600 and \$2,500 HDHPs have a non-embedded deductible and out-of-pocket limit. With non-embedded plans, there are no individual deductibles. The total family deductible must be met before the plan pays benefits for any individual family member. Again, the same logic applies to the out-of-pocket limit.

With the \$1,600, \$2,500, and \$5,000 HDHPs, all benefits are subject to the deductible unless otherwise noted. The annual medical plan deductible must be met before the plan pays a prescription drug benefit, with the exception of certain preventive medications and medical services not subject to the deductible. For a detailed list of medications not subject to the deductible under the HDHP plans, please contact Kairos at 888.331.0222.

All plans: The in-network and out-of-network deductibles and out-of-pocket limits are separate and do not accumulate toward one another.

IMPORTANT: This summary is intended only as a brief description of plan benefits. It attempts to describe plan details in a clear, simple, and concise manner. If there is a conflict between this summary and the wording of plan documents, the plan documents will govern. Kairos retains the right to change, modify, suspend, interpret, or cancel some or all benefits or services at any time.

BGE BGE-R	Policy Communications and Feedback	Language has been updated and revised to align with current practices.	Approve as presented
CCB-R	Line and Staff Relations	A.R.S. 15-353 is no longer a statute, and thus its requirement for a parental satisfaction survey for parents is no longer relevant, so that statutory reference has been removed. However, the requirement for a parental satisfaction survey is required by A.R.S. 15-102(A)(1) and is noted in Policy KB.	Approve as presented
CFD	School Based Management	A.R.S. 15-351 does not specify the number of members on school councils. Thus, the Policy has been revised to mirror the requirements of the statute.	Approve as presented
EB-R	Environmental and Safety Program	The reference to A.R.S. 15-2002 has been removed as that statue was repealed; the current relevant statute is A.R.S. 41-5702(A)(9). Language has been updated and revised to comply with statue and A.A.C. R7-6-215.	Approve as presented
ЕВАА	Reporting of Hazards/Warning Systems	A.R.S. 32-2301, 32-2311.01, and 32-2307 have been repealed and thus those legal references have been removed. ## JFABDA © ADMISSION OF STUDENTS IN FOSTER CARE

This policy is intended to direct compliance with Arizona State Laws, Arizona Administrative Code, and the Every Student Succeeds Act (ESSA) Foster Care provisions.

#### **Purpose Statement**

The implementation of this policy shall assure that:

- A. Within five (5) days after a child enters foster care or if a child's placement changes, the child, if appropriate, the child's caseworker, the child's parent, guardian, custodian, caregiver, or foster parent and representative from the local education agency or the child's school of origin shall determine if it is in the child's best interest to remain in the child's school of origin;
- B. Children in foster care remain enrolled in their school of origin for the duration of their time in care, unless a determination is made that it is not in such child's best interest to remain in their school of origin, which decision shall be based on all factors relating to the child's best interest, including consideration of the appropriateness of the current educational setting and the proximity to the school in which the child is enrolled at the time of placement, among other factors listed in law (See list in JFABDA-R);
- C. If it is determined that a change of educational placement is in the best interest of the child, the educational institution shall enroll the child shall be immediately in a new school within two (2) days. A child shall be immediately enrolled in a the new school, even if the child is unable to produce records normally required for enrollment or owes any outstanding fines or fees to the school of origin; however, the student may be required to provide their Notice to Providers document;
- D. The enrolling school shall immediately contact the school last attended by any such child to of origin within two (2) days to obtain relevant academic and other records. Upon request for records for any such child from another school, every effort shall be made to provide records within two (2) business days.
- E. In collaboration with the state or local Child Welfare Agency, transportation is provided to and from the school of origin or school of placement for the foster child as applicable and found in the law and Policy JFAA. In ensuring a child receives transportation to the educational institution determined to be in the child's best interest, the Department of Child Safety may coordinate with the Department of Education and local education agencies and enter into necessary information sharing, data sharing and financial agreements.

F. The District will work with the Department of Child Safety (or tribal agency) to ensure that the provisions of ESSA relating to foster children are implemented, including assigning a District employee to serve as a Point of Contact (POC) to work in collaboration with the applicable child welfare agency and notify the Arizona Department of Education of the assigned POC.

#### **Definitions**

The term "children in foster care" means children who are under twenty-four (24) hour substitute care while placed away from their parents or guardians and for whom the Child Welfare Agency (Department of Child Safety [DCS] or tribal) has placement and care responsibility. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, childcare institutions, and pre-adoptive homes. A child is in foster care in accordance with this definition regardless of whether the foster care facility is licensed, and payments are made by the state, tribal or local agency for the care of the child, whether adoption subsidy payments are being made prior to the finalization of an adoption, or whether there is federal matching of any payments that are made. (45 C.F.R. § 1355.20(a)) In Arizona, if DCS has received placement care and responsibility, then the child is in "foster care" even if the parent or guardian is permitted to live in the home of placement, such as a kinship home.

The term "school of origin" means the school in which a child is enrolled at the time of placement in foster care, including preschool. If a child's foster care placement changes, the school of origin would then be considered the school in which the child is enrolled at the time of the placement change.

### Point of Contact (POC) for Children in Foster Care - Responsibilities

The Superintendent will designate an appropriate staff person of authority as Point of Contact (POC) for children in foster care who will carry out duties as assigned and notify Arizona Department of Education's (ADE's) Statewide Foster Care Education Coordinator of the designated POC. Among those duties will be the responsibility to coordinate activities and programs to work in collaboration with the respective child welfare agency (either DCS or tribal), in the best interest of foster children that will include procedures to:

- A. Continue the student's education in the school of origin or placement;
- B. Collaborate with the Child Welfare Agency to implement the educational stability plan;
- C. Ensure the best interest is determined regarding school enrollment;
- D. Ensure necessary transportation is provided, funded, and arranged in collaboration with the Child Welfare Agency;
- E. Ensure immediate enrollment and transfer of records occurs when the student moves schools; and
- F. Ensure school staff are trained on the provisions and educational needs of children in foster care.

### Other Relevant Policies and Procedures

Implementation of the Every Student Succeeds Act (ESSA) Foster Care provisions requires the coordination with a number of policies and procedures. These policies and procedures are listed below as cross references and are incorporated in this policy and these procedures by such reference.

Enrollment preference may be given to children who are in foster care.

#### JH © STUDENT ABSENCES AND EXCUSES

The regular school attendance of a child of school age is required by state law. Regular school attendance is essential for success in school; therefore, absences shall be excused only for necessary and important reasons. Such reasons include illness, mental or behavioral health, bereavement, other family emergencies, and observance of major religious holidays of the family's faith.

In the event of a necessary absence known in advance, the parent is expected to inform the school; if the absence is caused by emergency, such as illness, the parent is expected to telephone the school office. When a student returns to school following any absence, a note of explanation from the parent is required.

#### When Absent from School

State law mandates that the school record reasons for all student absences. Therefore, when a student is absent, it will be necessary for the parent to call the school on or before the day of the absence in order to advise the school as to the reason for the absence. When it is impossible to call on the day of the absence, the school should be notified on the morning the student returns, in time for the student to obtain an admission slip prior to the student's first class. All absences not verified by parental or administrative authorization will remain unexcused.

If a parent does not have access to a phone, either at home or at work, a note will be accepted for verification purposes.

For absences greater than one (1) day in length, the school should be notified each day of the absence.

All personnel will solicit cooperation from parents in the matter of school attendance and punctuality, particularly in regard to the following:

- The A. The scheduling of medical and dental appointments after school hours except in cases of emergency.
- The B. The scheduling of family vacations during school vacation and recess periods.

The school may require an appointment card or a letter from a hospital or clinic when the parent has not notified the school of an appointment of a medical or dental nature.

School administrators are authorized to excuse students from school for necessary and justifiable reasons.

#### **Interviews**

School officials may question students regarding matters incident to school without limitation. The parent will be contacted if a student interviewed is then subject to discipline for a serious offense. A student may decline at any time to be interviewed by the School Resource Officer (SRO) or another peace officer.

When child abuse or abandonment of a student is alleged.

If a child protective services worker safety worker, a child welfare investigator, or peace officer enters the campus requesting to interview a student attending the school, the school administrator shall be notified. Access to interview shall be granted when the child to be interviewed is the subject of or is the sibling of or is living with the child who is the subject of an abuse or abandonment investigation. The personnel of the District shall cooperate with the investigating child protective services worker safety worker, a child welfare investigator, or peace officer. If a student is taken into temporary custody in accordance with A.R.S. 8-821, the child protective services safety worker or peace officer may be reminded to notify the student's parent of the custody, pursuant to A.R.S. 8-823. The child protective services worker safety worker, a child welfare investigator, or peace officer shall be requested to establish proper identification and complete and sign a "Form for Signature of Interviewing Officer." Six (6) hours following the relinquishment of custody by the school, school personnel may respond to inquiries about the temporary custody of the child and may, if considered necessary, call the parent.

Abuse or abandonment is **not** alleged.

No issue of student population safety is presented. If a peace officer enters the campus requesting to interview a student attending the school on an issue other than upon request of the school or for abuse or abandonment, the school administrator shall be notified. If the officer directs that parents are not to be contacted because the interview is related to criminal activity of the parent(s)/guardian, the school official shall comply with the request. Unless these circumstances exist the parent will be contacted and will be asked if they wish the student to be interviewed. If the parent consents the parent will be requested to be present or to authorize the interview in their absence within the school day of the request. Where an attempt was made and the parent(s) could not be reached or did not consent within the school day of the request, the peace officer will then be requested to contact the parent(s) and make arrangements to question the student at another time and place.

Safety of the student population is of concern. When a peace officer is present on the campus to interview students at the request of school authorities due to concerns for the safety of the students in the school population, parent contact shall only be made if a student is taken into custody or following the determination that the student may be subject to discipline for a serious

last

offense. The SRO, present at the request of the school for the continued maintenance of safety and order, may interview students as necessary regarding school related issues as determined by school officials and parents will be contacted if the student is to be taken into custody or if the student is subject to discipline for a serious offense.

Staff members are to report any suspected crime against a person or property that is a serious offense, involves a deadly weapon or dangerous instrument or that could pose a threat of death or serious injury and any conduct that poses a threat of death or serious physical injury to employees, students or others on school property. All such reports shall be documented and communicated to the Superintendent who shall be responsible for reporting to local law enforcement. Conduct that is considered to be bullying, harassment or intimidation shall be addressed according to Policy JICK as required in A.R.S. 15-341(A)(36).

The District is to notify the parent or guardian of each student who is involved in a suspected crime or any conduct that is described above, subject to the requirements of federal law.

#### Searches

School officials have the right to search and seize property, including school property temporarily assigned to students, when there is reason to believe that some material or matter detrimental to health, safety, and welfare of the student(s) exists. Disrobing of a student is overly intrusive for purposes of most student searches and is improper without express concurrence from School District counsel.

Items provided by the District for storage (e.g., lockers, desks) or personal items are provided as a convenience to the student but remain the property of the school and are subject to its control and supervision. Students have no reasonable expectancy of privacy, and lockers, desks, storage areas, et cetera, may be inspected at any time with or without reason, or with or without notice, by school personnel.

#### Arrest

When a peace officer enters a campus providing a warrant or subpoena or expressing an intent to take a student into custody, the office staff shall request the peace officer establish proper identification, complete, and sign a form for signature of an arresting officer or interviewing officer. The school staff shall cooperate with the officer in locating the child within the school. School officials may respond to parental inquiries about the arrest or may, if necessary, explain the relinquishment of custody by the school and the location of the student, if known, upon contact by the parent.

### **Independent Auditors' Report**

Governing Board
Osborn Elementary School District No. 8

### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Osborn Elementary School District No. 8 (District), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Osborn Elementary School District No. 8, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether
  due to fraud or error, and design and perform audit procedures responsive to those risks.
   Such procedures include examining, on a test basis, evidence regarding the amounts and
  disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing
  an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion
  is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, Schedule of Proportionate Share of Net Pension/OPEB Liability, and Schedule of Pension/OPEB Contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information

Management is responsible for the other information included in the annual report. The other information comprises the continuing disclosure requirement tables but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 12, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District 's internal control over financial reporting and compliance.

(THIS PAGE LEFT BLANK INTENTIONALLY)

As management of the Osborn Elementary School District No. 8, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2023.

#### **FINANCIAL HIGHLIGHTS**

- The District's total net position of governmental activities had a net increase of approximately \$4.2 million, which represents a 45.02% increase from fiscal year 2022. The key factors of this change include increased property tax and state/county equalization revenues due to an increase in state funding levels.
- General revenues accounted for \$32.2 million in revenue, or 69.3% of all fiscal year 2023 revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$14.3 million or 30.7% of total fiscal year 2023 revenues.
- The District had approximately \$42.2 million in expenses related to governmental activities, of which \$14.3 million of these expenses were offset by Program specific revenues in the form of charges for services and grants and contributions. General revenues of \$32.2 million were adequate to provide for the remaining costs of these programs.
- Among major funds, the General Fund had \$20.6 million in fiscal year 2023 revenues, which primarily consisted of state equalization funding and property taxes, and \$20.0 million in expenditures. The General Fund's fund balance increased by \$1,340,579 to \$4,495,397 as of June 30, 2023. Factors of this change include reduced continuity of operations expenditures in the general fund due to the utilization of Education Stabilization Funds. Additionally, general fund revenues increased as a result of the District's approved indirect cost rate and increased property tax and state equalization revenues.
- Total debt of the District decreased by \$5.6 million during the current fiscal year. The key factors in this change are discussed on Page 17.

### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### **OVERVIEW OF FINANCIAL STATEMENTS (CONT'D)**

**Government-wide financial statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation, and operation of non-instructional services.

The government-wide financial statements can be found on pages 19 and 20 of this report.

**Fund financial statements.** A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds.

**Governmental funds.** Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. These reconciliations are on pages 24 and 28, respectively.

### OVERVIEW OF FINANCIAL STATEMENTS (CONT'D)

In accordance with the Arizona Revised Statutes (A.R.S.), the District maintains 36 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Education Stabilization Fund, Capital Outlay Fund, and Debt Service which are considered to be major funds. Data from the other 32 governmental funds are combined into a single, aggregated presentation. The basic governmental fund financial statements can be found on pages 22, 23, 26 and 27 of this report.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 29 through 53 of this report.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the District's budget process and net pension liability. The District adopts an annual expenditure budget for all governmental funds. A budgetary comparison statement has been provided for the General Fund and the Education Stabilization Fund as required supplementary information. The required supplementary information can be found on pages 55 through 61 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

**Net position.** Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$13,428,055 as of June 30, 2023.

One portion of the District's net position reflects amounts restricted for its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress); less any related debt used to acquire those assets that are still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position are restricted by statute for the specified purposes of debt service repayment and capital outlay investment.

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS (CONT'D)

The following table presents a summary of the District's net position as of June 30, 2023 and 2022.

The District's financial position is the product of several financial transactions including the net result of activities, the payment of debt, the acquisition and disposal of capital assets, changes in assumptions related to net pension/OPEB assets/liabilities, the depreciation of capital assets, and the implementation of GASB 96. The following are significant current year transactions that had an impact on the Statement of Net Position.

- Current and other assets increased \$6.7 million due to a \$6.8 million increase in investments and \$0.1 million decrease in property taxes receivable.
- Capital assets decreased \$2.1 million due to factors discussed on page 16.
- Other liabilities increased \$4.5 million due to the overdraft of cash in the Education Stabilization Fund.
- Long term liabilities increased \$0.4 million due to factors discussed on page 17 and a \$6.2 million increase in the pension liability. Additionally, the pension/OPEB changes decreases are directly related to the increase in deferred inflows.
- Net position increased \$4.2 million due to factors discussion Page 9 and Page 14.

**Governmental activities.** The following table presents the cost of the 4 major District functional activities: instruction, support services, operation of non-instructional services, and interest on long-term debt. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

- The cost of all governmental activities for the years ended June 30, 2023 and 2022 was \$42.2 and \$38.1 million, respectively.
- Net cost of the governmental activities for the years ended June 30, 2023 and 2022 were (\$27.9 million) and (\$25.4 million), respectively. For the year ended June 30, 2023 the net cost of governmental activities were primarily financed by property taxes of \$20.9 million and State and County Aid of \$10.9 million.
- Interest on investments, property taxes, state and county aid increased approximately \$1.4 million due primarily to increased state funding levels per pupil.
- Additionally, mainly in response to COVID-19, operating and capital grant contribution funding increased, approximately \$1.8 million as follows:
  - Increased Education Stabilization Funds (ESSER) of approximately \$1.65 million
  - Increased Childcare Stabilization Grant funds of approximately \$430,000
  - Transportation Modernization grant of approximately \$500,000
  - Decreased NSLP funds of approximately \$380,000.
  - Decreased ESEA Consolidated Grant (Title 1, Title 2, Title 4) of approximately \$385,000
- Expenses increased \$4.1 million as a result of the increased grant activity discussed above and due to salary increases as a result of the district's compensation study for all employee groups. Certified staff received a 2.7% 9.8% salary increase, classified staff received a 3%-8% increase and the classified exempt, student support professionals and administrative staff received a 2% salary increase.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$19.1 million, the increase of \$1.9 million was primarily due to the increases in the Capital Outlay and General Fund detailed below.

The General Fund equity increased by \$1,340,579 to \$4,495,397 as of June 30, 2023 due to the factors detailed on page 9.

The Education Stabilization Fund is an accumulation of grants through the CARES and ARP acts. There was no remaining equity at June 30, 2023, but the programs aided in the continued success and operation of the District.

The Capital Outlay Fund equity increased by \$1,058,108 to \$6,863,339 as of June 30, 2023 due to allocations of property taxes and state equalization totaling approximately \$2.6 million and expenditures of approximately \$1.6 million in FY23.

The Debt Service Fund shows an increase in fund equity of \$80,753 to \$174,938 as of June 30, 2023, due primarily to increased interest on investments and decreased interest and fiscal charges on debt.

The Other Governmental Fund shows a decrease in fund equity of \$530,029 to \$7,536,762 as of June 30, 2023, this is due primarily to use of reserves in the Gifts and Donations and Arizona Transportation Modernization Fund.

#### **BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised the annual General Fund expenditure budget. Differences between the original budget and the final amended budget represented a 3.9% decrease. The \$869,411 decrease can be briefly summarized as follows:

- Final carryover funds increased from the original projections used at time of budget adoption by \$74,000 once FY22 expenditures were finalized.
- Reduction to the District's base support level of \$943,000 due to decrease in the current year funded student counts as compared to projected student counts used at time of budget adoption.

A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information on Page 55.

#### **CAPITAL ASSETS AND DEBT ADMINISTRATION**

As of June 30, 2023, the District had invested \$60.1 million in capital assets, net of \$44.3 million of accumulated depreciation and amortization. This amount represents a net decrease prior to depreciation of approximately \$2.1 million from last year, primarily due to \$4.2 million in depreciation and amortization expense offset by \$2.1 million in additions for various school improvement projects including a bus, video surveillance systems, playground replacements, and sewer line replacement. The following schedule presents capital asset balances net of depreciation and amortization for the fiscal years ended June 30, 2023 and 2022.

	2023 <u>Amount</u>	Restated 2022 <u>Amount</u>
Land and improvements	\$ 9,012,977	9,160,370

Additional information on the District's capital assets can be found in Note 7 on page 42 of this report.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION (CONT'D)

**Debt Administration.** At year-end, the District had \$48.4 million in general obligation bonds and other long-term debt outstanding, \$6.0 million due within one year. The net decrease of \$5.6 million was due to primarily \$5.7 million in regular debt service payments of principal and interest. The following table presents a summary of the District's outstanding long-term debt for the fiscal years ended June 30, 2023 and 2022.

	2023 <u>Amount</u>	2022 <u>Amount</u>
General obligation bonds outstanding Subscriptions-based information technology agreements	\$ 47,498,134 77,082	53,223,824
Compensated absences	787,114	783,606
Total	\$ 48,362,330	54,007,430

Additional information on the District's long-term debt can be found in Note 8 on pages 43 through 44 of this report.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET RATES**

Many factors were considered by the District's administration during the process of developing the fiscal year 2023-24 budget. The primary factors were increased state funding levels, salary increases and staffing needs in order to increase instruction and student support services. The COVID-19 pandemic necessitates the development of a budget focused on accelerated student learning, maximizing student outcomes and additional health and social-emotional supports. As a result, the 2023-24 budget included maintaining health and social-emotional support staff positions and salary increase recommendations from the district's compensation studies for all employee groups. Additionally, the Districts has approximately \$5 million in unspent ESSER grant awards to assist in the continued response to the effects of the COVID-19 pandemic.

These indicators were considered when adopting the budget for fiscal year 2023-24. The Budget expenditures in the General Fund increased 5.4% to \$22,619,885 in fiscal year 2023-24. The change in funding was due to increased state funding levels. Additionally, during 2021-22, the voter authorized capital override funding that began in 2018-19 and continues through fiscal year 2024-25 funded \$ 721,962 to replenish curriculum, online educational applications, and technology hardware and software. For 2023-24, the monies will continue to be used to update and replenish curriculum and update technology hardware and software.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET RATES (CONT'D)

The Arizona State Retirement System increased both the employer and employee contribution from 12.17% of salary to 12.29% of employee salaries beginning with the 2023-24 fiscal year.

The district currently pays 100% of the health insurance premium for all qualified employees. The District's cost for health insurance premiums increased by 5% from the prior year, and was considered in the development of the 2023-24 budget.

# OSBORN ELEMENTARY SCHOOL DISTRICT NO. 8 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2023

Net change in fund balances - total governmental funds	\$	2,105,198
Amounts reported for governmental activities in the statement of net position are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense		
Expenditures for capital assets		2,145,651
Loss on fixed asset disposals		(64,483)
Less current year depreciation		(4,004,369)
Excess capital expenditures over depreciation		(1,923,201)
Some revenues reported in the statement of activities do not provide current financial resources and therefore, are not reported as revenues in governmental funds		
Property tax revenues		(17,015)
		(17,015)
Pension/OPEB contributions are reported as expenditures in the governmental funds when made. However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the School's report date. Pension/OPEB expense, which is the change in the net pension/OPEB liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.		
Pension/OPEB contributions		2,483,476
Pension/OPEB expense	_	(4,053,967) (1,570,491)
The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. The issuance of long-term debt increases long-term liabilities on the statement of net position and the repayment of principal on long-term debt reduces long-term debt on the statement of net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when the debt is first issued, whereas these items are deferred and amortized over the term of the long-term debt in the statement of activities		
Subscription-based information technology agreements incurred		(123,638)

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying basic financial statements of Osborn Elementary School District No. 8 (District) have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to governmental units adopted by the Governmental Accounting Standards Board (GASB).

For the year ended June 30, 2023, the District implemented the provisions of GASB Statement No. 96, Subscription-Based Information Technology Arrangements, which (1) defines a subscription-based information technology arrangement (SBITA); (2) establishes that a SBITA results in a right-to-use subscription asset, an intangible asset, and a corresponding subscription liability; (3) provides the capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and (4) requires note disclosures regarding a SBITA. As a result, the District's financial statements have been modified to reflect the implementation of this new standard.

A summary of the District's more significant accounting policies follows.

Reporting Entity - The financial reporting entity consists of a primary government and its component units. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Additionally, the District is not included in any other governmental reporting entity.

Component units are legally separate organizations for which elected officials of the primary government are financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and is either (1) able to impose its will on that organization or (2) there is potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the District. The District may be financially accountable if an organization is fiscally dependent on the District.

There are no component units combined with the District for financial reporting purposes. Accordingly, the District's basic financial statements include only the funds and account groups of those organizational entities for which its elected governing board is financially accountable.

The District's major operations include education, pupil transportation, construction and maintenance of District facilities, and food services.

<u>Basis of Presentation</u> – The basic financial statements include both government-wide statements and fund financial statements. The government-wide statements focus on the District as a whole, while the fund financial statements focus on major funds. Each presentation provides valuable information that can be analyzed and compared between years and between governments to enhance the usefulness of the information.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Government-Wide and Fund Financial Statements – The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. However, charges for interfund services provided and used are not eliminated if the prices approximate their external exchange values. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. All indirect expenses are allocated to the support services function.

Separate financial statements are provided for governmental funds. Major individual funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor funds.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

information technology arrangements are reported as other financing sources.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Cont'd) Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The District's major revenue sources that are susceptible to accrual are property taxes, tuition, intergovernmental grants and aid and investment earnings. Expenditures generally are recorded when a liability is incurred, as under accrual accounting, except expenditures related to compensated absences and claims and judgments, which are recorded only when to the extent they are due and payable. General capital asset acquisitions are reported as expenditures in governmental funds. Issuances of

general long-term debt and acquisitions under lease contracts and subscription-based

Property taxes, intergovernmental grants and aid, tuition, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues also arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

The District reports the following major governmental funds:

The **General Fund** is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. It is described as the Maintenance and Operation Fund by Arizona Revised Statutes (A.R.S.).

The **Education Stabilization Fund** accounts for funds relating to the COVID 19 education stabilization fund grants funded through the CARES and ARP acts.

The **Capital Outlay Fund** accounts for transactions relating to the acquisition of items by purchase, lease-purchase, or lease as prescribed by A.R.S. §15-903(C).

The **Debt Service Fund** accounts for resources accumulated and used for the payment of general long-term debt principal, interest and related costs.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Cash and Investments</u> – The District considers cash on hand, demand deposits, cash on deposit with the County Treasurer, and only those highly liquid investments with a maturity of 3 months or less when purchased to be cash equivalents. Money market investments and certificate deposits with a remaining maturity of 1 year or less at time of purchase are stated at fair value.

<u>Inventory</u> – Inventories in the government-wide financial statements are recorded as assets when purchased and expensed when consumed. These inventories are stated at cost using the using the first-in, first-out method.

The District accounts for its inventories in the governmental funds using the purchase method. Inventories of the governmental funds consist of expendable supplies held for consumption and are recorded as expenditures at the time of purchase. Amounts on hand at year-end are shown on the balance sheet as an asset for informational purposes only and as nonspendable fund balance to indicate that they do not constitute "available spendable resources", except for donated U.S.D.A. commodities which are recorded as unearned revenues. These inventories are stated at cost using the using the first-in, first-out method. Commodities received from the U.S.D.A. are recorded as an expenditure when consumed and are recorded at fair value based on guidelines provided by the U.S.D.A.

<u>Prepaid Items</u> – Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

Receivables and Payables – Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

<u>Leases</u>- As lessor, the District recognizes lease receivables with an initial, individual value of \$15,000 or more. If there is no stated rate in the lease contract (or if the stated rate is not the rate the District charges the lessee) and the implicit rate cannot be determined, the District uses its own estimated incremental borrowing rate as the discount rate to measure lease receivables. The District's estimated incremental borrowing rate is calculated as described above.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Subscription-Based Information Technology Arrangements (SBITA)</u> – The District recognizes subscription liabilities with an initial, individual value of \$15,000 or more. The District uses its estimated incremental borrowing rate to measure subscription liabilities unless it can readily determine the interest rate implicit in the arrangement. The District's estimated incremental borrowing rate is based on the most recent bond issuance rates.

Prior year SBITAs were included with prepaid expenses, accordingly, net position as of July 1, 2022, was not affected for the implementation of GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*.

	Governmental Activities
Net position, as previously reported at June 30, 2022	\$ 9,259,251
Prior period adjustment-implementation of GASB 96: Intangible right-to-use subscription assets Prepaid expenses Total prior period adjustment	962,808 (962,808)
Net position as restated, July 1, 2022	\$ 9,259,251

<u>Capital Assets</u> – Capital assets, which include land and improvements, buildings and improvements, vehicles, furniture and equipment, are reported in the governmental activities columns in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Capital assets are reported at actual cost (or estimated historical cost if historical records are not available). Donated assets are reported at acquisition value.

Intangible right-to-use subscription assets are amortized over the shorter of the subscription term or the useful life of the underlying IT assets.

Depreciation/amortization methods, and estimated useful lives of capital assets are as follows:

	Depreciation/ Amortization Method	Estimated Useful Life
Buildings Improvements other than buildings Furniture and equipment Vehicles	Straight Line Straight Line Straight Line Straight Line	5-40 years 20 years 5-20 years 5-15 years
Intangibles Right-to-use subscription assets	Straight Line	2-6 years

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Deferred Outflows and Inflows of Resources</u> – The statement of net position and balance sheet include separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods that will be recognized as an expense or expenditure in future periods. Deferred inflows of resources represent an acquisition of net position or fund balance that applies to future periods and will be recognized as a revenue in future periods.

<u>Pensions</u> – For purposes of measuring the net pension and other postemployment benefits (OPEB) asset and liabilities, deferred outflows of resources and deferred inflows of resources related to pensions and OPEB, and pension and OPEB expense, information about the plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

<u>Fund Balance Classifications</u> – Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors (such as through debt covenants), grantors, contributors, or laws and regulations.

The unrestricted fund balance category is comprised of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations approved by the District's Governing Board, which is the highest level of decision-making authority within the District. Only the Governing Board can remove or change the constraints place on committed fund balances.

Assigned fund balances are resources constrained by the District's intent to be used for specific purposes, but that are neither restricted nor committed. The Governing Board has authorized the Finance Office to make assignments of resources for a specific purpose.

The unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

When an expenditure is incurred that can be paid from either restricted or unrestricted fund balances, it's the District's policy to use the restricted fund balance first. For the disbursement of unrestricted fund balances, it is the District's policy to use committed amounts first, followed by assigned amounts, and lastly unassigned amounts.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Investment Earnings</u> – Investment earnings is composed of interest, dividends, and net changes in the fair value of applicable investments.

Compensated Absences – Compensated absences consist of vacation leave and a calculated amount of sick leave earned by employees based on services already rendered. Employees may accumulate up to 40 days of vacation depending on years of service, but any vacation hours in excess of 20 days that are unused upon resignation or termination are forfeited. Sick leave benefits provide for ordinary sick pay and are cumulative but do not vest with employees with three years of service or less. However, for employees who have more than three years of service, sick leave benefits do vest and therefore are accrued. The current and long-term liabilities including related benefits, for accumulated vacation and sick leave are reported on the government-wide financial statements. Resources from the General and Special Revenue Funds are used to pay for compensated absences.

<u>Property Taxes</u> – Property tax levies are obtained by applying tax rate against either the primary assessed valuation or the secondary assessed valuation. Primary and secondary valuation categories are composed of the exact same properties. However, the primary category limits the increase in property values to 10% from the previous year, while there is no limit to the increase in property values for secondary valuation. Override and debt service tax rates are applied to secondary assessed valuation and all other tax rates are applied to the primary assessed valuation.

The County levies real property taxes on or before the third Monday in August, which become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

The County also levies various personal property taxes during the year, which are due the second Monday of the month following receipt of the tax notice and become delinquent 30 days thereafter.

However, a lien against real and personal property assessed attaches on the first day of January preceding assessment and levy thereof.

<u>Estimates</u> - The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and disclosure of certain contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

<u>Long-Term Obligations</u> – In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts, as well as issuance costs and the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight-line method over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

<u>Interfund Activity</u> – Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses.

<u>Subsequent Events</u> – The District has reviewed all subsequent events through February 12, 2024, which was the date the financial statements were available to be issued.

<u>Prior Year Amounts</u> – Certain prior year amounts have been reclassified to conform with current year presentations.

#### NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

<u>Budgetary Information</u> – The District adopts an annual operating budget for expenditures for all governmental fund types on essentially the same modified accrual basis of accounting used to record actual expenditures. The Governing Board presents a proposed budget to the Superintendent of Public Instruction and County School Superintendent on or by July 5. The Governing Board legally adopts the final budget by July 15, after a public hearing has been held.

Budgetary control over expenditures is exercised at the fund level. However, the General Fund is budgeted within three subsections titled regular education programs, special education programs, and pupil transportation, any of which may be overexpended with the Governing Board's prior approval at a public meeting, providing the expenditures for all subsections do not exceed the General Fund's total budget. The Maintenance and Operation Fund budget was decreased by \$869,411 during the year ended June 30, 2023.

#### NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (CONT'D)

A budget of revenues is not adopted or prepared by the District. However, an estimate of current year revenues to be collected is prepared. These estimates were used in the preparation of the supplementary and required supplementary information to the basic financial statements.

In November 2018, voters authorized a seven-year Maintenance and Operations Budget Override, commencing in fiscal year 2019-20, of up to 15% of the revenue control limit. The override will continue to help maintain present levels of service. In November 2023, the override was renewed for an additional seven years beginning in fiscal year 2024-25 for up to 10% of the revenue control limit.

<u>Excess of Expenditures Over Appropriations</u> – Expenditures exceeded the budget in the following funds:

	<u>Overexpendi</u>	
Major Fund:		
Debt Service	\$	1,000
Non-major Funds:		
Gifts and Donations		501,744
Litigation Recovery		200

Resources were available to meet the over-expenditures listed above.

#### NOTE 3 - NET POSITION RESTRICTED BY ENABLING LEGISLATION

<u>Classroom Site Funds</u> - In accordance with A.R.S. §15-977, the classroom site fund is established consisting of monies transferred to the fund pursuant to section 37-521, subsection B and section 42-5029, subsection E, paragraph 10. Teacher compensation increases based on performance or teacher base salary increases distributed pursuant to the statute shall supplement, and not supplant, teacher compensation monies from any other sources. As of June 30, 2023, \$2,749,511 is classified as restricted net position for use at school sites, primarily for compensation and related expenses.

#### NOTE 3 – NET POSITION RESTRICTED BY ENABLING LEGISLATION (CONT'D)

Instructional Improvement Fund - In accordance with A.R.S. §15-979, the instructional improvement fund is established consisting of monies deposited pursuant to sections 5-601.02(H)(3)(a)(i) and 5-601.02(H)(3)(b)(i), and interest earned on those monies. The department of education shall administer the fund. The fund is not subject to appropriation, and expenditures from the fund are not subject to outside approval notwithstanding any statutory provision to the contrary. Each school district and charter school may utilize up to fifty percent of the amount of monies determined pursuant to subsection C for teacher compensation increases and class size reduction as provided in section 15-977. The remaining fifty percent may be used for dropout prevention programs and instructional improvement programs including programs to develop minimum reading skills for students by the end of third grade. As of June 30, 2023, \$129,187 is classified as restricted net position for use at school sites, primarily for compensation and related expenses.

Results Based Funding - In accordance with A.R.S. §15-249.08, monies received shall not supplant monies budgeted or received from any other source that are generally provided to that school. The majority of the monies received from the fund shall be used at the school that earned the results for teacher salaries, to hire teachers, for school leader salaries, for classroom supplies and for other strategies to sustain outcomes for students at that school. A portion of the monies received from the fund may be used for expanding and replicating that school site as a quality school model. As of June 30, 2023, \$426,178 is classified as restricted net position for use at school sites.

#### **NOTE 4 - DEPOSITS AND INVESTMENTS**

Arizona Revised Statutes require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash in the Bond Building and Debt Service Funds, which may be invested separately.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds; and interest-bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes, employee insurance programs, and federal savings bonds. Some of these bank accounts may be interest bearing.

#### NOTE 4 – DEPOSITS AND INVESTMENTS (CONT'D)

Statute does not include any requirements for and the District does not have any formal policies for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Statute requires collateral for deposits at 102% of all deposits not covered by federal depository insurance.

<u>Custodial Credit Risk – Deposits</u> – Custodial credit risk is the risk that in the event of bank failure, the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At June 30, 2023, the carrying amount of the District's deposits was \$116,033 and the bank balances were \$116,236. At June 30, 2023, the bank balances were covered by Federal Depository Insurance.

<u>Investments</u> - At June 30, 2023, the District's investments, categorized within the fair value hierarchy established by generally accepted accounting principles, consisted of investment in the County Treasurer's Investment pool with a fair value of \$26,344,143 and average maturities of 469 days. The County Treasurer's investment pool is unrated.

The State Board of Investment provides oversight for the State Treasurer's pools, and the Local Government Investment Pool Advisory Committee provides consultation and advice to the Treasurer. The fair value of a participant's position in the pool approximates the value of that participant's pool shares and the participant's shares are not identified with specific investments. No comparable oversight is provided for the County Treasurer's investment pool, and that pool's structure does not provide for shares.

<u>Interest Rate Risk</u> – The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

<u>Credit Risk</u> – The District has no investment policy that would further limit its investment choices. As of June 30, 2023, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

<u>Custodial Credit Risk – Investments</u> – The District's investment in the County Treasurer's investment pool represent a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

#### **NOTE 5 – RECEIVABLES**

Governmental funds report unavailable revenue in connection with receivables for property tax revenues and other revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of available revenue and unearned revenue reported in the governmental funds were as follows:

#### **NOTE 9 - COMMITMENTS AND CONTINGENT LIABILITIES**

<u>Compliance</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

<u>Litigation</u> - In the normal course of business, the District is exposed to various contingent liabilities such as claims and lawsuits for which no provision has been made in the basic financial statements. The District's management is of the opinion that insurance coverage is adequate to cover any possible losses.

<u>Construction and Other Commitments</u> – During the year ended June 30, 2021, the District issued \$3,000,000 in school improvement bonds (Note 8) to fund projects for school and district improvements. As of June 30, 2023, the District has entered into construction contracts totaling \$1,600,440 for these projects. Costs incurred through June 30, 2023 have been capitalized as "construction in progress" and additional costs will be capitalized when incurred. At year end, the District's commitments under these contracts was \$1,593,932.

#### **NOTE 10 - RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District provides for these risks through the purchase of commercial insurance. Settled claims resulting from these risks have not exceeded the purchased commercial insurance in any of the past three fiscal years.

The District joined the Arizona School Risk Retention Trust, Inc. (Trust). The Trust is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to the Trust for its general insurance coverage. The agreement provides that Trust will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts. The District's contributions to the Trust totaled \$313,272 for the year ended June 30, 2023.

The District's employees have health insurance coverage with the Kairos Health Arizona, Inc. (Kairos). Kairos is a public entity risk-sharing and insurance purchasing pool. The District pays a monthly premium to Kairos for employees' health insurance coverage. If the pool becomes either insolvent or is otherwise unable to discharge its legal liabilities and other obligations, the District may be assessed an additional amount not to exceed the original required annual contribution to the pool. The District's contributions to Kairos totaled \$2,811,047 for the year ended June 30, 2023.

#### NOTE 10 - RISK MANAGEMENT (CONT'D)

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event. The District's contributions to the Alliance totaled \$176,240 for the year ended June 30, 2023.

#### NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

<u>Plan Description</u> – District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its website at <a href="https://www.azasrs.gov">www.azasrs.gov</a>.

<u>Benefits Provided</u> – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

#### **ASRS**

#### Initial membership date:

Years of service and age required to receive benefit	Before July 1, 2011 Sum of years and age equals 80 10 years, age 62 5 years, age 50* any years, age 65	On or after July 1, 2011 30 years, age 55 25 years, age 60 10 years, age 62 5 years, age 50* any years, age 65
Final average salary is based on	Highest 36 consecutive months of last 120 months	Highest 60 consecutive months of last 120 months
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%

<sup>\*</sup>With actuarially reduced benefits

#### NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONT'D)

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the retirement benefit option chosen determines the survivor benefit. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Health insurance premium benefits are available to retired or disabled members with 5 years of credited service. The benefits are payable only with respect to allowable health insurance premiums for which the member is responsible. For members with 10 or more years of service, benefits range from \$100 per month to \$260 per month depending on the age of the member and dependents. For members with 5 to 9 years of service, the benefits are the same dollar amounts as above multiplied by a vesting fraction based on completed years of service.

Active members are eligible for a monthly long-term disability benefit equal to two-thirds of monthly earnings. Members receiving benefits continue to earn service credit up to their normal retirement dates. Members with long-term disability commencement dates after June 30, 1999, are limited to 30 years of service or the service on record as of the effective disability date if their service is greater than 30 years.

Contributions - In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year. with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2023, statute required active ASRS members to contribute at the actuarially determined rate of 12.17 percent (12.03 percent for retirement and 0.14 percent for long-term disability) of the members' annual covered payroll, and statute required the District to contribute at the actuarially determined rate of 12.17 percent (11.92 percent for retirement, 0.11 percent for health insurance premium benefit, and 0.14 percent for long-term disability) of the active members' annual covered payroll. In addition, the District was required by statute to contribute at the actuarially determined rate of 9.68 percent (9.62 percent for retirement, and 0.06 percent for long-term disability) of annual covered payroll of retired members who worked for the District in positions that an employee who contributes to the ASRS would typically fill. The District's contributions to the pension plan for the year ended June 30, 2023, were \$2,483,476. The District's contributions to the pension, health insurance, premium benefit, and long-term disability plans for the year ended June 30, 2023, were \$2,431,869, \$22,442 and \$29,165, respectively.

During fiscal year 2023, the District paid for pension and OPEB contributions as follows: 58.99 percent from the General Fund, 19.66 Education Stabilization Fund and 21.35 percent from other funds.

#### NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONT'D)

<u>Liability</u> – At June 30, 2023, the District reported the following asset and liabilities for its proportionate share of the ASRS' net pension/OPEB asset or liability.

	pension/OPEB sset) liability
Pension	\$ 27,101,416
Health insurance premium benefit	(939,502)
Long-term disability	15,411

The net assets and net liabilities were measured as of June 30, 2022. The total pension liability used to calculate the net asset or net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2021, to the measurement date of June 30, 2022.

The District's proportion of the net asset or net liability was based on the District's actual contributions to the plan relative to the total of all participating employers' contributions for the year ended June 30, 2022, and the change from its proportions measured as of June 30, 2021, were

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pensions and OPEB will be recognized in expenses as follows:

<u>Actuarial Assumptions</u> - The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date

Actuarial roll forward date

Actuarial cost method

June 30, 2021

June 30, 2022

Entry age normal

Investment rate of return 7.00%

Projected salary increases 2.9%-8.4% for pensions/not applicable for OPEB

Inflation rate 2.3%

Permanent benefit increase Included for pensions/not applicable for OPEB

2017 SRA Scale U-MP for pensions and health insurance premium

Mortality rates benefit

Recovery rates 2012 GLDT for long-term disability

Healthcare cost trend rate Not applicable

Actuarial assumptions used in the June 30, 2021 valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2020.

The long-term expected rate of return on ASRS pension plan investments was determined to be 7.0 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

#### NOTE 11 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (CONT'D)

		Long-Term Expected
		Geometric Real
Asset Class	Target Allocation	Rate of Return
Equity	50%	3.90%
Fixed income - credit	20%	5.30%
Fixed income - interest rate sensitive	10%	(0.20%)
Real Estate	20%	6.00%
Total	100%	

<u>Discount Rate</u> – At June 30, 2022, the discount rate used to measure the ASRS total pension/OPEB liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension/OPEB liability.

Sensitivity of the District's proportionate share of the ASRS net pension/OPEB (asset) liability to changes in the discount rate – The following table presents the District's proportionate share of the net pension/OPEB (asset) liability calculated using the discount rate of 7.0 percent, as well as what the District's proportionate share of the net pension/OPEB (asset) liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.0 percent) or 1 percentage point higher (8.0 percent) than the current rate:

	Current		
Proportionate share of the	1% Decrease (6.0%)	Discount Rate (7.0%)	1% Increase (8.0%)

Net long-term disability liability	25,547	15,411	5,588

<u>Plan fiduciary net position</u> - Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report.

<u>Contributions Payable</u> – The District's accrued payroll and employee benefits included \$185,055 of outstanding pension and OPEB contribution amounts payable to ASRS for the year ended June 30, 2023.

Source: Real Property Tax Levies and Collections were obtained from the Maricopa County Treasurer's Secured Levy Report.

Notes: Taxes are collected by the Treasurer of the County. Taxes in support of debt service are levied by the Board of Supervisors of the County as required by Arizona Revised Statutes. Delinquent taxes are subject to an interest and penalty charge of 16% per annum, which is prorated at a monthly rate of 1.33%. Interest and penalty collections for delinquent taxes are not included in the collection figures above, but are deposited in the County's General Fund. Interest and penalties with respect to the first half tax collections (delinquent November 1) are waived if the full year's taxes are paid by December 31.

In November 2013, voters in the District authorized the District to continue to exceed its statutorily prescribed maintenance and operations budget limit by an amount not to exceed 15% of the prescribed limit. The authorization, which began in fiscal year 2014/15, extends for seven years, although in the sixth (fiscal year 2019/20) and seventh (fiscal year 2020/21) years, the amount by which the prescribed budget limit may be exceeded is limited to 10% and 5%, respectively. Tax rates for corresponding years include amounts available for this override. In November 2018, voters authorized a seven-year Maintenance and Operations Budget Override, commencing in fiscal year 2019-20, of up to 15% of the revenue control limit.

Unsecured personal property taxes are not included in this schedule.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

Governing Board Osborn Elementary School District No. 8

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Osborn Elementary School District No. 8 (District), as of and for the year ended June 30, 2023, and the related notes to basic financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated February 12, 2024.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Osborn Elementary School District No. 8

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management and the Governing Board of the District in the Uniform System of Financial Records Compliance Questionnaire dated February 12, 2024.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## Independent Auditors' Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance required by the Uniform Guidance

Governing Board
Osborn Elementary School District No. 8

#### Report on Compliance for Each Major Federal Program

#### Opinion on Each Major Federal Program

We have audited Osborn Elementary School District No. 8 's (District) compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2023. The District's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2023.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

#### Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### **Report on Internal Control Over Compliance**

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The following errors were noted during the review of 40 special education student files:

- 1. For 5 of 40 files tested, the Individualized education program (IEP) was not completed timely. The IEPs were between 1 and 54 days late.
- 2. For 3 of 40 files tested, the primary disability category was not properly reported. A prior or secondary eligibility category was used rather than the current primary eligibility category.
- 3. Although the District has established internal control processes and procedures to ensure student files include required documentation, the performance of these control activities was not documented for 1 of 40 provider files tested.

All children were provided appropriate services timely and the errors had no effect on funding amounts.

We have performed the procedures enumerated in the accompanying Auditor General of Arizona (Auditor General) Uniform System of Financial Records Compliance Questionnaire which were agreed to by Osborn Elementary School District No. 8 (District), the Auditor General, and the Arizona Department of Education (Department) for the year ended June 30, 2023. Management is responsible for the School's compliance with those requirements.

The District has agreed to and acknowledged that the procedures performed are appropriate in evaluating the District's compliance with applicable legal requirements during the year ended June 30, 2023. Additionally, the Auditor General and the Department have agreed to and acknowledged that the procedure performed are appropriate for their purposes. This report may not be suitable for any other purpose. The procedures performed may not address all the items of interest to a user of this report and may not meet the needs of all users of this report and, as such, users are responsible for determining whether the procedures performed are appropriate for their purposes.

#### **Procedures and Findings**

We completed the accompanying Uniform System of Financial Records Compliance Questionnaire in accordance with the instructions contained therein. Our findings are listed below the applicable question in the accompanying Uniform System of Financial Records Compliance Questionnaire.

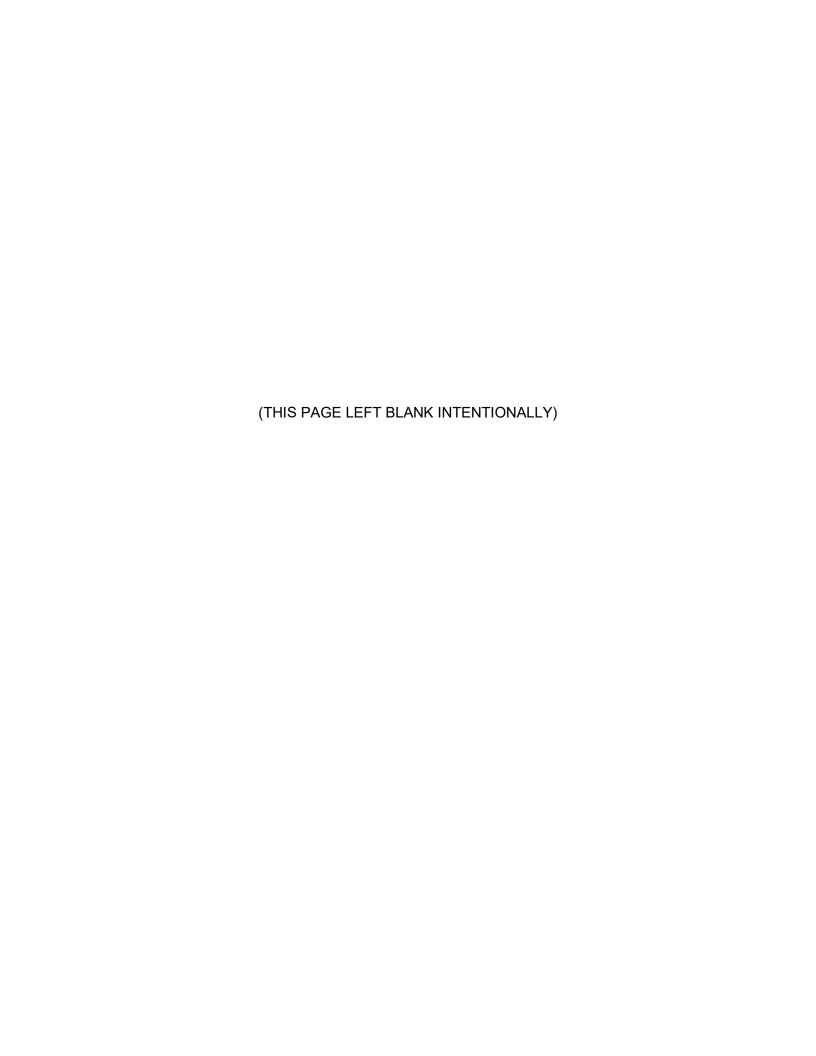

We were engaged by the District to perform this agreed-upon procedures engagement and conducted our engagement in accordance with attestation standards established by the American Institute of Certified Public Accountants. We were not engaged to and did not conduct an examination or review engagement, the objective of which would be the expression of an opinion or conclusion, respectively, on compliance. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our agreed-upon engagement.

This report is intended solely for the information and use of the District, the Auditor General and the Department and is not intended to be and should not be used by anyone other than these specified parties.

## Osborn Elementary School District Uniform System of Financial Records Compliance Questionnaire For Fiscal Year Ended June 30, 2023

#### **Instructions**

Arizona Revised Statutes (A.R.S.) §15-271 requires the Arizona Auditor General to inform any school district failing to establish and maintain the requirements prescribed by the *Uniform System of Financial Records for Arizona School Districts* (USFR) that it has 90 days to correct the cited deficiencies. The USFR prescribes the minimum internal control policies and procedures to be used by Arizona school districts for accounting, financial reporting, budgeting, attendance reporting, and various other compliance requirements. To help the Arizona Auditor General determine whether a district has attained an acceptable degree of compliance with USFR requirements, the audit firm must complete this USFR Compliance Questionnaire (CQ).

A.R.S. §§15-213(F) and 15-914(G) require districts to have a systematic review of their purchasing practices and average daily membership (ADM), respectively, performed in conjunction with their annual or biennial financial audit to determine whether the district complied with the applicable State of Arizona procurement and student attendance laws and rules. Auditor completion of the Procurement and Student attendance reporting CQ sections constitutes the required systematic reviews.

Audit firms must gain an understanding of the district's internal controls and obtain and document sufficient, appropriate evidence annually to support each CQ response. These instructions, the CQ questions, and the required review procedures constitute the minimum audit standards for completing the CQ. Required review procedures are included in the "tooltip" next to applicable questions in the web-based auditor submission CQ. The Arizona Auditor General may reject CQs that are not prepared in compliance with the minimum audit standards.

- Audit documentation must describe the procedures performed, items reviewed, and the results of such procedures and reviews to support
  the auditor's CQ responses and related comments.
- Evidence may be obtained through test work, observation, examination, and client assertion. However, client assertion alone is not adequate evidence to support "Yes" responses on the CQ.
- The audit firm must determine the district reviewed documents and transactions and provided sufficient evidence of approval including manual or electronic signatures or initials and date of review.
- Audit firms must consider population size in determining the number of items to test (i.e., sample, scan, review, examine, or observe),
  and the items selected should be representative of the population. Therefore, testing 1 transaction, record, or item is not sufficient. The
  Credit cards and purchasing cards, Procurement, and Student attendance reporting CQ sections prescribe minimum sample sizes for
  specific questions. Population and samples sizes used for test work should be entered in the fields provided next to the applicable
  questions throughout the CQ.
- A "Yes" response indicates that the audit firm has determined that the district complied with the USFR for that question based on auditor obtained evidence. Several review procedures allow for auditors to determine whether the district implemented compensating controls when recommended USFR procedures could not be implemented due to limited staff size. When compensating controls are found, auditors should answer the question "Yes" and describe in the comments the compensating controls in place to meet the question's objective. However, the Arizona Auditor General makes the final determination of compliance with the USFR based on the evidence presented in the CQ, audit reports, audit documentation, and any other sources of information available.
- A "No" response indicates the district did not comply with the USFR for that question. Audit firms must explain the district's deficiency noted for all "No" responses in the comment box below the question. Deficiencies must be described in sufficient detail to enable the Arizona Auditor General to determine the nature and significance of the deficiency for: (a) assessing compliance with the USFR, (b) appropriately describing the deficiency in a report, and (c) testing compliance during a status review. The description should include the number of items tested and the number of exceptions noted, or dollar amount of the error, and any other relevant information that would provide context for the deficiency.
  - Cash and revenues questions apply to all the district's cash and revenue, including food service, auxiliary operations, extracurricular activities fees tax credit, and student activities receipts and bank accounts. Comments for "No" responses to these questions should indicate the type of receipt or bank account to which the deficiency applies.
- An "N/A" response indicates the district did not have activity related to the USFR requirements for that question. The audit firm must explain all "N/A" responses in the comment box below the question, unless the reason for the N/A is obvious.

The questions in the CQ do not address all requirements of the USFR. If the audit firm is aware of noncompliance with a requirement of the USFR that is not addressed in the CQ, including the School District Procurement Rules and the Arizona Department of Education's (ADE) membership and attendance guidelines, the audit firm should include the compliance findings in its reports issued in accordance with Governmental Auditing Standards and Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*, as applicable.

The audit firm must make the resulting audit documentation supporting the audit firm's CQ responses and comments available on request for the Arizona Auditor General and the ADE's review. To facilitate this review, the audit firm should include in the audit documentation a copy of the CQ with references to the audit procedures performed for each question.

Once the audit firm has completed, reviewed, and signed the CQ, it must submit it electronically to the Arizona Auditor General by following the instructions at the end of the web-based auditor submission CQ. Audit firms should print the file to PDF to create the CQ document to distribute to the district. As required by A.R.S. §15-914(D), the district must submit the completed CQ with the audit reporting package to the district's county school superintendent's office and ADE.
